

Wear a Tee, Build a School Fundraising Campaign

Nefful International believes that everyone has the ability to realize their own dreams. However, there are many children living in developing countries who could not afford to dream due to undeveloped infrastructure and severe living environments. They are also suffering from limited learning opportunities due to the lack of resources.

This year, Nefful International is launching a fund-raising campaign - "*Wear a Tee, Build a School*"- in collaboration with World Vision International to play our part in empowering the communities around us. This initiative shall help to improve the learning environment in Gyogone Village of Myanmar where funds collected will be used for a school construction in the village.

We hope to gather the strength of all partners in this meaningful initiative and put a smile on the children's faces. A small contribution from us can ignite hope in them and change their lives!
